**Subject:** Mayor Salary Study

---

Hello,

I added the fiscal impact language and made some minor adjustments to the agenda bill for the salary study. I also made a few adjustments to the comparison spreadsheet and analysis document. I put all of the documents in the July 6, 2020 Council meeting folder, so any of us can make further edits. The City of Edgewood ordinance has some good verbiage, so I put that in the folder too in case we want to borrow anything. Thanks!

**Subject:** Recall: Mayor Salary Study

---

Michelle Robbecke would like to recall the message, "Mayor Salary Study".

What does Recall mean?

You can try to recall the message from the recipients by using the Recall This Message feature in Microsoft Outlook. This lets you recall, replace or delete the messages sent.

Remember that the recall function will only work if your recipient has not opened or seen your email yet, and if they are using the same email server.

The success or failure of a message being recalled depends largely on their mail system and settings and whether they want to let you recall it, which is probably the single best reason why this method is probably not the best one to use. There's also the fact that recalling a message will generally inform the recipient that the email exists and highlight the fact that you want to recall it.

**To:** Michelle Robbecke  
**Subject:** Message Recall Failure: Mayor Salary Study

---

NOTE: This means Chief Hernandez had opened the email sometime between when it was sent (6:54 pm) and when the recall attempt was made (8:33 pm).

The next page shows the recall for Trisha Summers was successful. I did not get an email showing the success or failure for the Mayor.

But what's interesting is what happens on the last page.....
