Good Morning Richard,

I can understand where you are coming from. Being that there was no action being made, (simply an open discussion to direct staff to review) I didn't see a cause for public comment. Additionally, we haven't taken public comment during other Zoom meetings so I didn't want to break that protocol. We will address this if we are forced to move forward with Zoom meetings.

Also, this will not be an agenda item that can be done via Zoom. It will have to wait until we are able to have meetings back in council chambers and open to the public.

I will forward your email to Council as well. Thank you for always being involved.

Shanna Styron Sherrell | *Mayor*

1000 Laurel Street
Milton, WA 98354

Subject: Meeting 18 May

Mayor, love the format with Zoom, adds a whole new dynamic to meetings.

Unfortunately when Council adds items to the agenda it doesn't leave Citizens the ability to address additions during the Zoom Meeting with comments. Would like that to be addressed in the future so if an item is added citizens have the opportunity to make comments with additions and deletions.

I definitely agree that the position needs to have a review for the pay, my question is was about if Councilmember Morton's request included any benefits to be included in that review and if so what benefits would be included.

Thank you

Richard Cosner
